About the Speakers

Dan Towery operates Ag Conservation Solutions in Lafayette, Ind., and focuses on no-till, cover crops and soil health.

Dr. Hans Kok is an agricultural consultant in Indiana. He currently is an educator for the Indiana Conservation Cropping Systems Initiative (CCSI).

CONSERVATION TECHNOLOGY INFORMATION CENTER

The mission of the Conservation Technology Information Center (CTIC) is to champion, promote and provide information on technologies and sustainable agricultural systems that conserve and enhance soil, water, air and wildlife resources and are productive and profitable.
