

An integration of mitigation and adaption options for sustainable livestock production under climate change.

The European Union AnimalChange project invite you to attend a workshop on

**“Livestock and Climate Change”**  
at the  
**ISRA (National Institute for Agricultural Research)**

**Dakar, 15<sup>th</sup> and 16<sup>th</sup> January 2015**

The workshop will present results from the EU-FP7 Animal Change project and derive strategies to implement the outputs from the project relevant to Central and Eastern Europe.

The event will include:

- Keynote lectures on applicable results obtained from EU AnimalChange project
- Lectures on the major issues and limits for an efficient animal production in West and North Africa
- Lectures on the mitigation and adaptation strategies that are relevant to West and North Africa
- A round table discussion on how the outputs from the project can be implemented in West and North Africa for the improvement of livestock systems

There will also be opportunity on the evening of the first day for delegates to present posters.

The workshop will be of interest to those working in Research, Industry, Extension and Policy throughout West and North Africa.

Lectures and discussions will be in French and in English with simultaneous translation.

There is **no registration fee** but there are a limited number of places so please register early. The deadline for registration is **December 19th, 17:00h GMT**

Details of the programme and instructions for registration can be found on the AnimalChange website: <http://www.animalchange.eu/Content/Dakar2015.html>
