

To The farmers,

Thank you, for giving us milk in school.  
I like milk in school because of how  
it tastes and how it helps our body  
to get up and learn. I like milk because  
it's good for your bones and it  
get energy in your body.

To all the farmers in New Zealand  
I think dairy farming is hard.

Question.

How do you milk a cow?

Is it hard to get milk out of a cow?

What do you need to do when you  
milk a cow?

What do you use to milk a cow?

yours sincerely,  
Sarah
