Luis Daniel LLambí Consortium for Sustainable Development of the Andean Ecoregion (CONDESAN), Peru

14.15 Q&A SESSION

Interventions from the floor

14.25 CLOSING REMARKS

Mountain Partnership Secretariat, FAO

This side event, organized within the framework of the Mountain Partnership, will focus on partnerships and collaboration for building back better from COVID-19 in mountains. It will focus on the role of multi-stakeholder platforms established by governments and NGOs to address issues of international significance.

The session will bring together a selection of panellists to highlight the role of mountains in combating and recovering from two current global crises: COVID-19 and climate change. Panellists will propose concrete examples and recommendations on how mountain communities and environments can recover from the pandemic and adapt to our changing world.
